

AGES ASM 2022

Free Communications Schedule

Thursday 3rd November		
Session Two: Chairman's Choice		
0930 - 1030		
Time	Abstract Title	Presenting Author Names
0930 - 0940	Pre-clinical evaluation of immune response to stem cell boosted degradable nanostructured surgical constructs for pelvic organ prolapse.	David Hennes
0940 - 0950	Robotic Intrafascial colpotomy, edge to edge vaginal cuff closure plus peritoneal graft (IFC E2E + PG) for concurrent hysterectomy with sacrocolpopexy to minimise vaginal vault mesh erosion	Assem Kalantan
0950 - 1000	HISTOLOGICAL EFFECT OF FRACTIONAL CO2 LASER IN POSTMENOPAUSAL VAGINAL EPITHELIUM: A DOUBLE-BLIND SHAM-CONTROLLED RANDOMISED TRIAL	Fiona Li
1000 - 1010	The National Endometriosis Clinical and Scientific Trials (NECST) Registry	Cecilia Ng
1010 - 1020	Neuropelvelogy: Robotic decompression of the sciatic plexus secondary to vascular entrapment	Mikhail Sarofim
1020 - 1030	MACH – Methoxyflurane Analgesia for Conscious Hysteroscopy: a double-blind, randomised controlled trial – an interim analysis	Emily Twidale

Thursday 3rd November		
Session Four A: Free Communications		
1330 - 1500		
Time	Abstract Title	Presenting Author Names
1330 - 1340	Oral Glucose Tolerance Tests and Lower Urinary Tract Dysfunction	Candice Anderson
1340 - 1350	Perioperative operative outcomes of Robotic Sacro-colpopexy with Rectus Autologous Fascia (SCARF) graft for the management of apical pelvic organ prolapse : a prospective observational study	Felix Chan
1350 - 1400	A Rare Case of Intramyometrial Pregnancy	Pinar Cingiloglu
1400 - 1410	Coaching from the couch - Evaluation of the introduction of an Australia and New Zealand wide remote video based coaching program for laparoscopic gynaecological surgical training	Sean Copson
1410 - 1420	Developing future tools for the endometriosis clinician's toolbox: Onwards and upwards in endometriosis diagnosis and treatment	Caitlin Filby
1420 - 1430	Medical management of secondary postpartum haemorrhage	Rachael Fox
1430 - 1440	Strengths and Limitations of Various Detection Methodologies for Microbiome Study in Endometriosis.	Jaehee Kim
1440 - 1450	Surgical management of Cornual ectopic pregnancy	Svetha Rao
1450 - 1500	Identification of ureters with ICG dye in benign gynaecology	Tanushree Rao

Thursday 3rd November		
Session Four B: Free Communications		
1330 - 1500		
Time	Abstract Title	Presenting Author Names
1330 - 1340	Chronic Pelvic Pain: Does menstrual frequency predict pain scores in those using the Levonorgestrel intrauterine device?	Iлона Jakab
1340 - 1350	A feasibility study to examine the link between longitudinal environmental exposure and endometriosis phenotype	Blake Knapman
1350 - 1400	Management of Deep Infiltrating Endometriosis Involving Bowel Utilising Disk resection: Video of Surgical Technique & Summary of Outcomes	Barbara Lowes
1400 - 1410	External validation of the "2021 Endometriosis Classification": a retrospective cohort study	Jason Mak

1410 - 1420	The prediction of surgical complexity using the "2021 AAGL Endometriosis Classification": an inter- and intra-observer reproducibility study	Jason Mak
1420 - 1430	Surgical Coaching in Endometriosis – The Midlands Advanced Laparoscopic Endometriosis Training Program	Tavaziva Mudzamiri
1430 - 1440	Influence of Tubal Patency on Endometriosis Recurrence: a Retrospective Matched Case-control Study	Sofie Neutens
1440 - 1450	Should we abandon the wording of cornual pregnancy and prefer the term of eccentric pregnancies?	Lionel Reyftmann
1450 - 1500	Docking in 60 seconds - is this the death of laparoscopic surgery?	Jessica Robertson

Thursday 3rd November
Session Four C: Free Communications
1330 - 1500

Time	Abstract Title	Presenting Author Names
1330 - 1340	A prospective study of bladder function following endometriosis surgery with up to 8 years follow-up	Kimberly Nguyen
1340 - 1350	Intrafascial Hysterectomy	Nancy Peters
1350 - 1400	Laparoscopic Sacrocolpopexy using a Biologic Graft – A video presentation	Charlotte Rook
1400 - 1410	Sexual Function after laparoscopic/robotic sacrocolpopexy – a marker for mesh related complications	Mikhail Sarofim
1410 - 1420	The Myometrial Cervical Ratio: Can a simple sonographic measurement improve diagnosis of adenomyosis in a regional setting?	Megan Sewell
1420 - 1430	Consent for Gynaecological Imaging in the Adolescent	Kate Stone
1430 - 1440	Management of Premalignant Changes in Ovarian Endometriosis	Kiran Vanza
1440 - 1450	When it rains it pours: A rare case of stage 4 Endometriosis with recurrent ascites, pleural effusions and hepatic lesions.	Lima Wetherell
1450 - 1500	Virtual reality and its use in post-operative pain following laparoscopy: a feasibility study.	Lima Wetherell

Thursday 3rd November
DCS Morning Tea
1030 - 1100

Time	Abstract Title	Presenting Author Names
1040 - 1045	When aberrant anatomy and endometriosis intersect: a case of gynaecological problem solving	Katie Christensen
1045 - 1050	Time to hysterectomy following endometrial ablation based on age: A retrospective review of outcomes following transcervical resection of the endometrium for management of abnormal uterine bleeding	Renee Cocks
1050 - 1055	Spiders and mushrooms – reporting bowel endometriosis shape on preoperative MRI corresponds to surgical complexity	Sean Copson
1055 - 1100	Management of secondary postpartum haemorrhage; a systematic review	Rachael Fox

Thursday 3rd November
DCS Lunch
1230 - 1330

Time	Abstract Title	Presenting Author Names
1240 - 1245	High Uterosacral Suspension Technique	Bavelin Gill
1245 - 1250	Tackling the difficult total laparoscopic hysterectomy – a video-based guide of suggested tips and tricks	Myriam Girgis
1250 - 1255	Management of a Caesarean section scar endometrioma	Vanessa Gray
1255 - 1300	A Case of Disseminated Intravascular Coagulopathy Following Endometrial Biopsy	Britt Haller
1300 - 1305	Gastric injury at gynaecologic laparoscopy: a systematic review	Hillary Hu
1305 - 1310	Public funding of outpatient vs inpatient hysteroscopy services: A comparative assessment of selected countries.	Marianne Huynh
1310 - 1315	Hand Assisted Laparoscopic Myomectomy	Galabadage Jayasinghe
1315 - 1320	The Trabeculae Study - is it a diagnostic tool?	Catherine Lawrence
1320 - 1325	Caesarean scar pregnancy in a large Australian tertiary hospital: A cohort study	Lily Liew
1325 - 1330	Post-laparoscopic shoulder pain in Gynaecological laparoscopy: A narrative review	Stewart McNamara

Thursday 3rd November		
DCS Afternoon Tea		
1500 - 1530		
Time	Abstract Title	Presenting Author Names
1510 - 1515	Double, Double Trouble	Stella MeiMei Ho
1515 - 1520	Inverted Y vault closure technique with prophylactic vault suspension	Ali Mohamed
1520 - 1525	The "Rendezvous" Technique for Caesarean Scar Defect. Combined Hysteroscopic and Robotic Repair.	Kusam Nagi
1525 - 1530	What's out there? A systematic review of the efficacy and availability of targeted treatments for central sensitisation in women with endometriosis	Moira Philip

Friday 4th November		
DCS Morning Tea		
1000 - 1030		
Time	Abstract Title	Presenting Author Names
1010 - 1015	The effect of obesity on cost of total laparoscopic hysterectomy	Vinita Rajadurai
1015 - 1020	Davinci Robotic Port Sites – New Configurations For Cosmesis	Jessica Robertson
1020 - 1025	Pelvic lymph node mapping in endometrial cancer – Robot versus Laparoscopy	Jessica Robertson
1025 - 1030	Neuropelveology: Robotic decompression of the sacral plexus secondary to vascular entrapment	Mikhail Sarofim

Friday 4th November		
DCS Lunch		
1230 - 1330		
Time	Abstract Title	Presenting Author Names
1240 - 1245	Onwards from opioids: Study design of Lignocaine to improve pain outcomes for women undergoing gynaecological surgery. A double blinded randomised control trial.	Sasha Skinner
1245 - 1250	When you see nothing at all: Outcomes following a negative laparoscopy. A review.	Lucy Steele
1250 - 1255	Anatomy of the vesico- vaginal fascia and its relation to branches of the inferior hypogastric plexus	Douglas Stupart
1255 - 1300	Onward and Upward. But we need help with our approach.	Philip Suisted
1300 - 1305	Sonographic characteristics of isolated fallopian tube torsion compared to ovarian and adnexal torsion – a retrospective comparative trial	Rina Tamir Yaniv
1305 - 1310	From the Sublime to the Ridiculous: Videos of the extremes of excision of rudimentary uterine horn	Kate Tyson
1310 - 1315	The 'AccesSim' Study - Motivators and barriers to access, and engage in laparoscopic simulation training in O & G – a study to understand trainees' and trainers' perspectives in Australia and New Zealand	Saima Wani
1315 - 1320	A tale of two cities; A difficult case of laparoscopic and hysteroscopic management of caesarean scar pregnancy with dense pelvic adhesions.	Lima Wetherell
1320 - 1325	Red herrings and acute superior mesenteric artery occlusion	Lily Xu
1325 - 1330	Is there a difference in pain perception after cesarean delivery among women with endometriosis?	Yael Yagur

Friday 4th November		
DCS Afternoon Tea		
1530 - 1600		
Time	Abstract Title	Presenting Author Names
1540 - 1545	Obstetric Outcome after Surgical Treatment of Endometriosis: A literature review	Samantha Mooney
1545 - 1550	Surgical management of bowel endometriosis. An overview of practice at Sydney Women's Endosurgery Centre.	Kusam Nagi
1550 - 1555	Centralisation of endometriosis care in New Zealand/Aotearoa: the Waikato Model	Sofie Neutens
1555 - 1600	Determining a threshold measurement of Endometrial Thickness for Asymptomatic Postmenopausal Women: A single-centre case series	Amy Stewart
