

Changes to General Gynaecology MBS items

Last updated: 21 December 2021

- From 1 March 2022, some of the Medicare Benefits Schedule (MBS) items for gynaecology services are changing to align with contemporary and evidenced based treatment. The changes are a result of the MBS Review Taskforce recommendations for gynaecology and extensive consultation with stakeholders.
- The changes relate to four subspecialty areas - General Gynaecology, Assisted Reproductive Technology, Urogynaecology and Gynaecological Oncology. There is a separate factsheet for each area.
- This factsheet covers General Gynaecology services.

What are the changes?

From 1 March 2022, changes will be made to some of the General Gynaecology services funded through the MBS. The changes comprise of 3 new items, 28 amended items and 9 deleted items.

New items: 35631, 35632, 35751

Amended items: 35503, 35506, 35513, 35517, 35518, 35611, 35616, 35620, 35622, 35623, 35626, 35630, 35633, 35635, 35636, 35637, 35640, 35641, 35643, 35649, 35653, 35658, 35756, 35759, 35661, 35750, 35753, 35754,

Deleted items: 35502, 35520, 35572, 35627, 35634, 35638, 35677, 35678, 35688

This factsheet also includes proposed Private Health Insurance (PHI) classifications and categorisations for the new and amended MBS items, noting these are subject to the making and registration of the Private Health Insurance Rules.

Why are the changes being made?

These changes give effect to the recommendations of the independent MBS Review Taskforce, which was informed by the Gynaecology Clinical Committee, plus further consultation with clinical experts and stakeholders through the Gynaecology Implementation Liaison Group. The changes will promote best clinical practice, patient safety and quality of care.

More information about the Taskforce and associated Committees is available on the Department of Health website: [Medicare Benefits Schedule Review](#). A full copy of the Taskforce's final report, including the rationales of changes which are outlined in this factsheet, can be found at: 2020 – [Medicare Benefits Schedule Review Taskforce. – Final Report on the Review of Gynaecology MBS Items](#).

What does this mean for providers?

Providers will need to familiarise themselves with the changes to the MBS items relevant to their practice, and any associated rules and/or explanatory notes. Providers have a responsibility to ensure that any services they bill to Medicare fully meet the eligibility requirements outlined in the legislation.

How will these changes affect patients?

Patients will continue to receive Medicare rebates for general gynaecology services that reflect contemporary clinical practice.

Who was consulted on the changes?

A number of peak bodies were consulted during the MBS Review process, including the Royal Australian and New Zealand College of Obstetrician and Gynaecologists, National Association of Specialist Obstetricians and Gynaecologists, Australian Society of Gynaecologic Oncologists, UroGynaecological Society of Australia, Fertility Society of Australia, Australian Gynaecological Endoscopy & Surgery Society, Royal Australian College of General Practitioners, Australian Medical Association, Private Healthcare Australia, Australian Private Hospital Association, and consumer representatives.

How will the changes be monitored and reviewed?

The impact of these changes will be closely monitored. The Department will continue to work with stakeholders following implementation of the changes.

All MBS items are subject to compliance processes and activities, including random and targeted audits which may require a provider to submit evidence about the services claimed.

Where can I find more information?

The current gynaecology item descriptor(s) and information on other changes to the MBS can be found on the MBS Online website at www.mbsonline.gov.au. The updated item descriptors will be live on the website from 1 March 2022.
