

FREE COMMUNICATIONS SCHEDULE

Thursday 29th February

Session 2: Chairman's Choice

Central Room A

0940 - 1000

0940 - 0950	Mapping a caesarean scar niche with hysteroscopy and Firefly® near-infra red technology without ICG in robotic hysterectomy with dense bladder adhesions.	Cherynne Johansson
0950 - 1000	Keeping up with the Neon Green: The benefits of incorporating fluorescence imaging into benign gynaecology laparoscopic surgery	Shamitha Kathurusinghe
1000 - 1010	Tacking Large Cervical Fibroids: Tips and Tricks	Michelle Louie
1010 - 1020	The clinical outcomes for women having surgery with and without hysterectomy for confirmed endometriosis	Caitlin Tjoa
1020 - 1030	Robotic assisted approach to excision of bladder endometriosis nodule at time of hysterectomy	Samuel Vo
1030 - 1040	Seeing is Believing: Empowering Patients through Video Education. A randomised controlled trial evaluating a multimedia video for patients undergoing TLH	Avelyn Wong

Friday 1st March 2024

Session 7.1: Free Communications

Central Room A

1030 - 1200

1030 - 1040	AAGL Exchange Lecture: Anterior Approach to Large Pathology	Sierra Seeman
1040 - 1050	Uterine retrieval surgery in living donor for uterus transplantation: Anatomical considerations and variations	Sarah Choi
1050 - 1100	Total laparoscopic hysterectomy, resection of severe endometriosis, with bilateral extensive ureterolysis and contained in-bag morcellation.	Jessica Dunning
1100 - 1110	Laparoscopic bilateral salpingectomy for removal of Essure © contraceptive device	Maeve Gallagher
1110 - 1120	Evaluating the Relationship Between Hormonal Expression and Clinical Presentation in Endometriosis and Adenomyosis	Belinda Guo
1120 - 1130	Surgery versus non-surgical treatment for endometriosis-related pain during the COVID-19 pandemic	Ally Hui
1130 - 1140	Repeat fractional CO2 laser for postmenopausal vaginal symptoms: a prospective follow-up study	Fiona Li
1140 - 1150	Intraperitoneal instillation of ropivacaine at gynaecological laparoscopy for postoperative pain reduction: a randomised control trial	Vanessa Lusink
1150 - 1200	Novel ultrasound based endometriosis staging systems developed with univariate analysis	Jason Mak

How do I do that?

29 February - 2 March 2024
Gold Coast Convention and Exhibition Centre

Friday 1st March 2024

Session 7.2: Free Communications

Central Room C

1030 - 1200

1030 - 1040	The Impact of Preoperative Hysteroscopy on Positive Cytology : A Retrospective Study Based on Mismatch Repair Proteins Status	Ran Matot
1040 - 1050	Diagnostic test accuracy of each of the four IDEA ultrasound steps.	Phil McClenahan
1050 - 1100	Impact of Pain and Infertility Symptoms on Depression and Anxiety in Individuals with Endometriosis: A Prospective International Online Survey	Phil McClenahan
1100 - 1110	Fertiloscopy and its place in the gynaecologist's armamentarium	Stewart McNamara
1110 - 1120	Management of vesico-vaginal fistula via robotic approach	Rebecca Nash
1120 - 1130	Unmasking the Masquerade: Laparoscopic Removal of a Cotyledonoid Dissecting Leiomyoma Misdiagnosed as an Ovarian Tumor	Stephanie O'Dea
1130 - 1140	Laparoscopic Adenomyomectomy: A Longitudinal Case Presentation	Emily Olig
1140 - 1150	Navigating Big Uteri: Surgical Strategies in Minimally Invasive Gynecology	Tanushree Rao
1150 - 1200	Efficacy of the low FODMAP diet for gastrointestinal symptoms associated with endometriosis - a randomised controlled trial	Roni Ratner

Friday 1st March 2024

Session 7.3: Free Communications

Central Room B

1030 - 1200

1030 - 1040	Planning a trip Tiger country – Case presentation of pre-operative visualisation of endometriosis associated with lateral parametrial vessels.	Alexandra Gil
1040 - 1050	Designing a combined robotic and laparoscopic approach to the surgical management of severe endometriosis involving the diaphragm	Travis Rule
1050 - 1100	The use of a vessel sealer in a difficult robotic myomectomy – a novel technique to reduce blood loss	Mikhail Sarofim
1100 - 1110	Unveiling Leiomyosarcoma: Clinical Insights and Surgical Perspectives through Video Case Presentations	Stephanie Zhu
1110 - 1120	A novel approach to identifying bowel in endometriosis surgery – Rectal IndoCyanine Green	Timothy Chang
1120 - 1130	Clinical Application of a Novel Diffusion Weighted Imaging Algorithm to identify and report fibroid variants.	Eashan Tambimuttu
1130 - 1140	Laparoscopic Resection of a 15 week Pregnancy in a Rudimentary Horn	Avelyn Wong
1140 - 1150	21st Century Person Centred Care: Project CHARLI	Anusch Yazdani
1150 - 1200	Laparoscopic Excision of Cervical Stump	Stephanie Zhu

DIGITAL FREE COMMUNICATIONS SCHEDULE

Thursday 29th February			Hall 1
Morning Tea			
1050 - 1110			
1050 - 1055	Mastering Robotic Surgery in Gynaecology: Training Insights	Mohammed Almoqren	
1055 - 1100	Sexual Function and dyspareunia after laparoscopic and robotic sacrocolpopexy – 13 year long-term follow-up	Hayley Anderson	
1100 - 1105	Direct referral pathway to outpatient hysteroscopy: acceptability and success rates	Danielle Brydges	
1105 - 1110	Robotic uterine harvest for uterine transplant: The various surgical techniques	Danny Chou	
Thursday 29th February			Hall 1
Lunch			
1300 - 1340			
1300 - 1305	Prediction of MBS item number based on deep endometriosis ultrasound	George Condous	
1305 - 1310	Australasia's first Live Birth following Uterus transplantation	Rebecca Deans	
1310 - 1315	Are all registered randomised control trials on hysteroscopy published?	Grace Freeman-Spratt	
1315 - 1320	Utilising Transvaginal Endometriosis Ultrasound (TVES) to Triage Endometriosis surgical cases to either a District General Hospital vs a Tertiary Hospital	Alexandra Gil	
1320 - 1325	The development of phenotype-specific organoid models of endometriosis for therapeutic targeting	Kate Gunther	
1325 - 1330	Robotic versus laparoscopic Burch Colposuspension (ROBOCOLP): a prospective cohort study	Sireen Jaber	
Thursday 29th February			Hall 1
Afternoon Tea			
1540 - 1600			
1540 - 1545	Adoption of vaginally assisted natural orifice transluminal endoscopic surgery for hysterectomy (VANH) – a single tertiary experience	Patrick Laws	
1545 - 1550	Opportunistic bilateral salpingectomy: uptake and perioperative outcomes at the time of hysterectomy	Patrick Laws	
1550 - 1555	Natural history of uterine fibroids during perimenopause and menopause	Michelle Louie	
1555 - 1600	The effect of Ultrasound-Diagnosed Isolated Adenomyosis on Placental-Related Obstetric Complications	Ran Matot	

How do I do that?

29 February - 2 March 2024
Gold Coast Convention and Exhibition Centre

Friday 1st March

Morning Tea

1010 - 1030

Hall 1

1010 - 1015	Patients' Experiences following a Negative Laparoscopy for Pelvic Pain.	Tristan McCaughey
1015 - 1020	Decreased quality of life persists following treatment compared to people without endometriosis: a study from the Australian National Endometriosis Clinical and Scientific Trials (NECST) Registry.	Cecilia Ng
1020 - 1025	Innovative ICG Application in Benign Gynecological Surgery: Enhancing Safety and Precision	Stephanie O'Dea
1025 - 1030	Anatomical neuromuscular variations determined by magnetic resonance imaging in chronic pelvic pain	Yuanyuan Peng

Friday 1st March

Lunch

1220 - 1300

Hall 1

1220 - 1225	Abdominal hysterectomy rates – drivers and indications and underlying factors in the decision making for abdominal hysterectomy over minimally invasive approaches to hysterectomy.	Obi Johnson
1225 - 1230	Title: Comprehensive Appendiceal Assessment during Gynecologic Surgery: Implications for Ovarian Pathology	Obi Johnson
1230 - 1235	Laparoscopic Management of Accessory Cavitated Uterine Malformation (ACUM): A Case Series	Kumaressan Rangunathan
1235 - 1240	Transvaginal Natural Orifice Transluminal Endoscopic Surgery (vNOTES) in Benign Gynaecology: A Systematic Review of Adnexal, Prolapse and Myomectomy Procedures	Nina Reza Pour
1240 - 1245	An analysis of evidence and gaps for trans men with endometriosis: a systematic review and meta-analysis	Madeleine Sheppard
1245 - 1250	Introduction of digital consent to augment current consent processes for patients undergoing hysterectomy	Graeme Walker
1250 - 1255	Telementoring in Gynaecology Endosurgical Procedures During the COVID-19 Pandemic	Madeleine Ward
1255 - 1300	Resection of endometrioid adenocarcinoma with hysteroscopic morcellation: A case report	Tanushree Rao

Friday 1st March

Afternoon Tea

1510 - 1530

Hall 1

1510 - 1515	AGES/Hologic Hysteroscopic Fellowship 2020	Samantha Mooney
1515 - 1520	AGES/Medtronic Travelling Fellowship 2022	Alison Bryant-Smith
1520 - 1525	AGES/Hologic Hysteroscopic Fellowship 2022	Lauren Hofmann
1525 - 1530	AGES/Hologic Hysteroscopic Fellowship 2023	Inge Putri

Poster listing on next page.

DIGITAL POSTERS

Impact of Maternal Assisted Caesarean Section on Matrescence: A Mixed Methods Study	Michael Bardsley
Exploring Pelvic Surgical Spaces: A Step-by-Step in dissection of Pelvic Anatomical Space for Laparoscopic Gynaecologists	Lucinda Beech
A day at the zoo with Kera the gibbon	Anna Brownson
Variation in referral to secondary care among women with endometriosis and persistent pelvic pain at two hospital services in Aotearoa New Zealand: A retrospective observational study	Amy Burrows
Heavy menstrual bleeding: Experiences & Learnings from Patients Survey (HELPS)	Russell Dalton
A case series of a novel low anterior colpotomy surgical technique to address three-compartment prolapse at hysterectomy	Zaynab El-Hamawi
Dichorionic twin interstitial ectopic pregnancy successfully resolved with expectant management	Vanessa Gray
Clostridium difficile infection after a single dose of systemic, prophylactic cephalosporin for laparoscopic endometriosis surgery	Candice Houda
Screening for intimate partner violence in an Australian ambulatory gynaecology clinic and its impact on care	Candice Houda
LOETUS - Long Term observation of endometriosis with transvaginal ultrasound	Ally Hui
Complex Postoperative Course Following Laparoscopic Adhesiolysis and Oophorectomy in a Patient with Ehlers-Danlos Syndrome: A Case Report	David Kronos
"How to NOTE in New Zealand when not to is an option. First vNOTES hysterectomy in New Zealand longitudinal series single center advanced vNOTES adoption"	Elliot Mackenzie
" AGES in Global health -First to third in a suitcase- vNOTES in Zimbabwe. Pioneering advanced approaches in resource limited settings. Perspectives of the Transabdominal surgical outcomes versus NOTES outcomes (TSONO) consortium	Elliot Mackenzie
Novel surgical based endometriosis staging systems developed using univariate analysis	Jason Mak
An International Delphi Consensus on the Histopathological Diagnosis of Adenomyosis	Tristan McCaughey
Ovarian endometriomas, when and when not to treat	Vinita Rajadurai
Transvaginal Natural Orifice Transluminal Endoscopic Surgery (vNOTES) for Gynaecological Oncology Procedures: A Systematic Review	Nina Reza Pour
Diagnostic challenge of a retroperitoneal pelvic schwannoma: a case report.	Lucy Risbey
The Versus Variation: An Innovative Approach to Robotic Surgical Teaching	Jessica Robertson
The Value of Multidisciplinary Team Input for Better Outcomes in Deep Infiltrating Endometriosis (DIE) Scans	Phillipa Robertson
Ultrasound imaging of adnexal masses in early pregnancy – a case report of a mistaken identity.	Grace Ross
Uterine transplant with robot-assisted uterus retrieval in Australia – the training pathway	Mikhail Sarofim
Commercially available non-invasive tests for endometriosis: Promise and Perils	Simon Scheck

How do I do that?

29 February - 2 March 2024

Gold Coast Convention and Exhibition Centre

A Case of Ovarian Cystadenofibroma; Strategies to Unmask the Masquerader of Malignancy.	Kathryn Schlotfeldt
Ink or Endometriosis? - A Case of Widespread Peritoneal Tattoo Ink During Diagnostic Laparoscopy for Suspected Endometriosis.	Kathryn Schlotfeldt
Laparoscopic Removal of Anomalous Structures in Complex Obstructive Mullerian Anomalies in Paediatric and Adolescent Gynaecology (PAG): Experience of the Queensland PAG Service between 2002 and 2023	Amanda Wee
MyoSure® hysteroscopic resection of retained products of conception: a case series	Sarah Whitby
Should Minimally Invasive Gynaecologists perform appendicectomy?	Yael Yagur
Sharing our journey: Discovering fresh Perspectives with HUGO TM	Yael Yagur
