Message from the Convenors and AGES President

Dear Colleagues,

On behalf of the Organising Committee, we warmly invite you to join us in Sydney for AGES 'ART' - Endometriosis and Assisted Reproductive Technology - and the Gynaecological Ultrasound Workshop 2005. These important Meetings are to be held from 28 through 30 July 2005.

The 'ART' Scientific Program offers a comprehensive overview of some of the most controversial areas of 'Reproductive Surgery', and will be preceded by an outstanding full day workshop on Gynaecological Ultrasound, staged by AGES in association with NASOG. This fascinating academic program encompasses endometriosis at the 'Cutting Edge', together with the most up-to-date interpretation of Assisted Reproductive Technology.

The social program embraces Art in Medicine, with the highlight a private evening's viewing at the Art Gallery of NSW. The Director of the Gallery, Edmund Capon, is our special guest and after-dinner speaker.

We look forward to welcoming you to Sydney, and consolidating AGES' reputation for innovative Focus Meetings.

The Art Gallery of New South Wales is a leading museum of art, boasting significant collections of European, Australian and Asian art as well as important temporary exhibitions.

The evening will commence with drinks and canapés in the Modern Australian gallery, home of many works from the 20th century Australian Collection, and artists such as Nolan and Drysdale. One of the highlights of the evening will be our after dinner speaker, Edmund Capon, Director of the Gallery.

This will be an evening to remember combining fine dining and great art in one of Sydney's most magnificent buildings.

THE ART OF MARGARET PRESTON

Margaret Preston (1875-1963) is one of Australia's most celebrated artists and considered by many as the country's most significant early modernist painter. Preston's work has been the subject of much ongoing interest and popularity, and the Art Gallery of New South Wales is delighted to present the first major retrospective of her work in 2005.

This major exhibition explores all aspects of the artist's career and consists of more than 180 works including paintings, prints, pottery, textiles and illustrative work.
